

MBA in Supply Chain Management

(No Affiliation. The course is a professional program in association with Indian Institute of Materials Management (IIMM))

Course Description

A Professional Programme in association with Indian Institute of Materials Management (IIMM), this course shall be one of its kind focusing on Supply Chain Management, still keeping the basic essence of a foundation MBA program. The world is shifting towards supply chain excellence and companies are looking for resources trained in SCM area. Generic MBAs are no longer able to fulfill the above needs. The program shall have large content of experiential learning and immersion content with leading SCM companies. The objective of the course is to offer opportunities to build up an expertise in the supply chain management area by assembling together under one umbrella the diverse fields of knowledge associated with supply chain management.

Course Details

The subjects under the course structure have been spread over four semesters covering a two years period starting from the basic disciplines of management and embedded with specialization of SCM with practical exposures in the field of supply chain analytics. Thrust areas of the course shall be deep insight into supply chain domain coupled with framework of analytics.

Eligibility

Basic qualification needed shall be :

1. Bachelor Degree in any branch of Engineering / Technology or its equivalent
2. Bachelor Degree in Statistics (Four years course)
3. Bachelor degree in science and commerce
4. Programs offered by IIMM which are equivalent to graduate degrees provided by Indian Universities
5. Provided 1 to 4 above meets the AICTE requirements for admission into a MBA program.
